The **CF-LD-30** is a linear-index-motion, heat shrink machine designed to work with reusable rigid trays for institutional packaging. The CF-LD-30 implements the latest technology in both machine mechanics and packaging material for shrinkable applications.

If you work for a school system, correctional facility, home for the elderly, or just serve in reusable trays, the CF-LD line of machines is your ideal solution. Other sizes of this line are available. This machine has been designed to work with the DuPont Mylar 50XMLD.

FEATURES

- LIDS HIGH PROFILE FOODS
- ELIMINATES NEED FOR RIGID LIDS
- PROVIDES TAMPER EVIDENCE
- NO HEAT SEALANT, NO RESIDUE PROBLEMS
- EXTENDS LIFE OF REUSABLE CONTAINERS
- PACKAGE SELF VENTING DURING RETHERM
- FLANGE CONTAMINANTS DO NOT EFFECT LIDDING
- CONSTRUCTED FOR WASH-DOWN ENVIRONMENT
- MEETS ALL FDA AND USDA STANDARDS

- Quality Built
- 15 cycles / 30 trays/min
- Flexible sizes (LxWxH)
- Great value!

OPTIONS

- AUTOMATIC TRAY FEEDING SYSTEM
- AUTOMATED PRODUCT PLACEMENT
