

R-50

The multi-functional R-50 is an index-motion rotary filling and sealing machine designed for high-volume cups and trays packaging. The R-50 denests, fills, seals and caps containers at rates of up to 50 cups per minute.

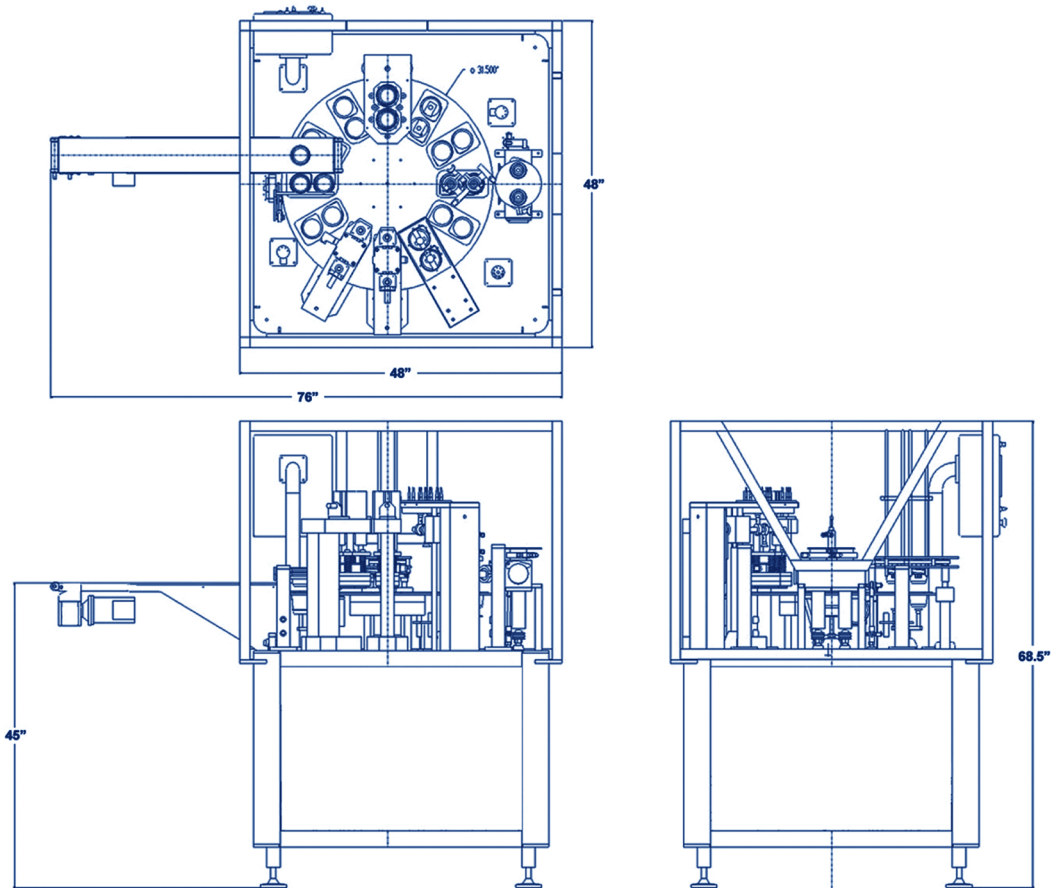

ADVANCED TECHNOLOGY

QUICK & EASY TOOL CHANGE

R-50

Features

- Tree-foot conveyor belt
- Denests, fills, seals and lids
- Constructed from stainless steel
- Adjustable seal pressure and temperature
- Digital temperature control with PT100 sensor
- Digital cycle counter for accurate batch counts
- Meets or exceeds all FDA and USDA standards
- Frame is mounted on leveling adjustment pads
- Constructed to withstand washdown environment
- Can operate with roll stock or pre-die-cut film or foil
- Tray carriers and tooling are designed for each package
